

Welcome to DyzSocial, a social media platform with decentralized governance that offers a safe space for you to post, write, and discuss anything that matters to you, including political, religious, educational, lifestyle, and social issues, without fear of censorship or bans. We understand the value of free speech and the importance of responsible communication, which is why our community operates on a self-governance model. The content you publish on DyzSocial will be judged by the community based on its quality, relevance, and impact, so it is important to choose your words carefully and avoid content that may be deemed offensive or harmful.

Every member of our community has a voice in how our platform is run. To ensure that our community stays safe and inclusive, we've created some community guidelines that we expect all members to follow. We want everyone to feel welcome and respected, regardless of their race, gender, religion, sexual orientation, or political views.

Our community guidelines serve as a framework to ensure that we maintain a safe and inclusive environment. When any violation of these guidelines occurs, it is the community's role to take action through the decentralized governance system. While we encourage free speech, we also urge you to be mindful of the community you are part of. Avoid using offensive or derogatory language that could upset others, and take care to consider different perspectives. After all, it's through thoughtful discussion and respectful debate that we can achieve a greater understanding of the world we live in.

As a member of the DyzSocial community, we expect you to adhere to the following guidelines:

1. **Respect others:** DyzSocial is a diverse community of individuals with different backgrounds, beliefs, and opinions. We encourage you to engage in meaningful discussions and debates, but we also expect you to treat others with respect and courtesy. Avoid using derogatory or inflammatory language that could offend or upset others.
2. **No hate speech:** Hate speech, including racism, sexism, homophobia, transphobia, and any other form of discrimination, is not tolerated on DyzSocial. We aim to create a safe and inclusive environment for everyone, and hate speech undermines that goal.
3. **No bullying or harassment:** We have a zero-tolerance policy when it comes to personal attacks, intimidation, or threats directed towards fellow members of our community. Such behavior will be met with swift and decisive action. If the community votes against your post for bullying or harassment, your account will be temporarily restricted from posting for a designated period as a consequence.

4. **No spamming or self-promotion:** DyzSocial is a platform for open discussion and sharing of ideas, not self-promotion. We do not allow any form of spamming or excessive self-promotion on our platform.
5. **No illegal or harmful content:** Posting or sharing any illegal or harmful content, including violent or graphic images, pornography, or anything that violates our terms of service, is strictly prohibited on DyzSocial.
6. **Respect intellectual property:** Please respect the intellectual property of others and do not post content that violates copyright, trademark, or other intellectual property laws.
7. **Follow local laws and regulations:** Our platform is available worldwide, and we expect our users to comply with their local laws and regulations.

It is essential to recognize that repeated offenses can lead to more severe consequences. If the inappropriate behavior persists despite previous warnings, there may come a point where your account will face extended restrictions, spanning several months or even years. This measure is necessary to protect the well-being and safety of our community members.

**Decentralized Governance:** Your actions on DyzSocial are subject to evaluation by the community, who may report any content they find concerning. This reporting process initiates a governance mechanism, wherein your content will be submitted for voting if you decide to contest the reported flag. Alternatively, you have the option to proactively surrender by utilizing the surrender button, thereby avoiding potential damage to your reputation over time.

In the event that you believe your content has been flagged unfairly, you retain the right to file an appeal. During this stage, the DyzSocial team, in collaboration with the community, assumes the responsibility of moderating the appeal process. This interim measure will remain in effect until our platform reaches a sufficient user base to conduct the election of council members dedicated to overseeing such matters.

We understand the importance of fairness and transparency in handling appeals. Our goal is to ensure that every appeal is thoroughly evaluated, taking into consideration the perspectives of both the DyzSocial team and the wider community. Through this process, we aim to uphold the principles of justice and equity, while striving to establish a robust governance structure that represents the diverse interests of our growing platform.

At DyzSocial, we value the input and participation of our community members in shaping the platform's future. By encouraging accountability, providing an avenue for appeal, and employing collaborative decision-making, we foster an environment of trust and transparency. Together, we work towards creating a social media platform that respects the rights and voices of all users.
